DEGREE INFORMATION**Concurrent Degrees**

A student may qualify to earn two degrees concurrently by completing all requirements for both degrees, including major, supporting, and general education requirements. Courses used in one degree program may also be used in the other. The minimum number of hours that must be earned for two associate degrees is 80; the minimum for two baccalaureate degrees is 160. The minimum number of hours required for concurrently earning an associate and a baccalaureate degree is the number required by the baccalaureate degree.

It is the student's responsibility to file a separate graduation application for each degree being sought. If the two degrees are in the same college, the student must file two applications in the office of the college dean. If they are different colleges, one application must be filed in each dean's office. See "Application for Graduation" section.

Subsequent Degrees

Students having earned one degree, either from Eastern Kentucky University or from another regionally accredited institution, may subsequently pursue an additional degree, either associate or baccalaureate, by completing all requirements of the subsequent degree, including major, supporting, and general education requirements. While some of the hours earned from the earlier degree may count toward the subsequent degree, students must earn at least 16 approved semester hours for an associate degree beyond those required for the earlier degree. A subsequent baccalaureate degree requires at least 32 approved hours beyond those required for the earlier degree. Hours for both degrees must be taken at Eastern Kentucky University or, as approved by the dean of the college awarding the subsequent degree, at another

regionally accredited institution. Students who have completed a previous degree elsewhere and apply to Eastern Kentucky University, should have official transcripts from the institutions previously attended sent to Eastern Kentucky University's Admissions Office.

General Education Requirements

The mission of general education is to promote learning that is central to the intellectual pursuits associated with our educational programs and to enable students to make informed choices about matters of public and personal significance in a diverse, democratic society and global community. The general education program helps students to become informed, independent thinkers by developing competencies in communication, quantitative analysis, and critical thinking by helping them understand and appreciate the diversity of culture, individuals, the natural environment, and the global society. For certain curricula, individual requirements are waived if they are satisfied in the major program. Refer to the program plans in Section 5 of this *Catalog*.

The General Education Program consists of 48 hours of course work in eight blocks (identified with Roman numerals): communication (I), mathematics (II), arts and humanities (III), natural sciences, (IV), social and behavioral sciences (V), wellness (VI), breadth of knowledge (VII), and depth of knowledge (VIII). These blocks are subdivided into 16 course categories. Students must earn the specified number of hours in each of these course categories.
