NET 467 (Exit Exam for BS), NET 367A (Exit Exam for AAS), NET 367B (Exit Exam for Minor) all require completion of an online exam covering 3 areas (Networking, Computer Systems, Electricity & Electronics), 20 objective type questions each, and a hands-on lab in these three areas as well.

Additionally, BS (NET/CST) student need to take an adviser approved certification. Additional information about this is available on page 58 of this doc.

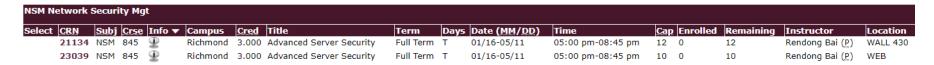

#### 3+2 BS (CST)

The accelerated 3+2 BS (CST) degree program permits students to get a jump start on future graduate program that is closely related to the BS degree. In this case, the related future MS degree would be the MS in Technology Management, with a concentration in Cyber Systems Tech Security. Refer to the 3+2 degree flyer for additional information about this program.

Students in the 3+2 accelerated BS (NET) program may take the following 3 grad courses and count these in both their BS (NET) and future MS (AETM-NSM concentration) coursework.

For students who started the 3+2 accelerated BS(CST) program in Fall 2019 or later the 3 grad courses they can double-count in the BS and MS degrees are: NSM 815 (Foundations of Network Security), NSM 845 (Advanced Server Security), and AEM 804. Of these, NSM 845 is being offered in the spring 2024 semester.

#### **NSM 845**

Juniors and seniors with a 3.0 GPA or higher may fill out the online 3+2 Enrollment Request form: https://success.eku.edu/register/3+2enrollment#\_ga=2.226754461.1235401688.1648737327-1921516019.1560180921

If you are logged into EKU using your credentials, this 3+2 enrollment form will automatically get filled in with the relevant information. Verify the information, sign it electronically, submit. As this process is new, also consult with Prof. Vigs regarding the admission process into the 3+2 program.

### Concurrent enrollment in BS (CST) and Master's degree courses:

BS (CST) students within 30 hours of completion of their degree, with a 3.0 GPA or higher, may enroll concurrently in graduate level courses (total undergrad/grad class load limited to 15 hours) following completion of appropriate paperwork. Meet with your advisor to discuss the procedure for concurrent enrollment in grad classes.

Note that normally no graduate level classes taken concurrently with undergraduate level ones may not be used to fulfill any undergrad requirements. Only when the student is also part of a 3+2-degree program, can pre-specified graduate level courses taken concurrently with undergraduate courses be used for fulfilling the requirements of the current undergraduate, and if applicable, the specified graduate degree program the student may choose to enroll in the future.

The NSM 895 can be taken only by MS (TM – CSTS) students or those in the concurrent BS-MS degree program with appropriate authorizations from the AE&T department and EKU grad school. The concurrent BS-MS degree does not permit double-counting of courses between the undergraduate and graduate degrees, unlike the 3+2 BS (CST) degree, which allows selected graduate-level courses (NSM 815, 845, AEM 804) to be counted both for the BS (CST) degree and possible MS (TM) degree is the student continues to our MS degree.

#### At least 1 credit hour Co-operative Education requirement (NET 349) for BS (CST) and AAS (Tech-CE) majors

For students who have completed NET 302 (PC Construction & Troubleshooting), NET 303 (LANs & PC Communications), and possibly NET 354 (Microcomputer/Network Security), NET 403 (Advance LANs & PC Communications), or NET 395 (Special Topics in NET), you may consider putting your knowledge and skills to work earning college credit (and \$) while developing professional work practices. Following an approval process through the <a href="EKU Career & Co-operative Education">EKU Career & Co-operative Education</a> office, in consultation with our work supervisor, 1 credit hour of NET 349 may be awarded for a minimum of 80 hours of work. Some assistance for finding co-op is offered through the EKU co-op office, through personal contacts, IT on-campus jobs, and job fairs. Starting the process early (in your Sophomore or Junior years) is recommended as it requires coordination across multiple units on and off campus.

Several IT computer technologies related <u>student jobs</u> are general available on campus (under the "Employment Type" search box, type in "Student"). Once hired, with your job supervisor's approval for participating in this process, and in consultation with Ms. Zoie Webb (<u>Zoie.Webb@eku.edu</u>, 859-622-5828, Whitlock 468) at the EKU Co-op office, and NET co-op coordinator's (Prof. Vigs) students may be able to use tech related positions toward the co-operative education requirement. Students do not register themselves for co-op, the EKU co-op office will get the students registered.

The EKU co-op process requires the use of an online software – Handshake. Log in using your EKU student credentials -- <a href="https://oacs.eku.edu/get-handshake">https://oacs.eku.edu/get-handshake</a>

Students do not directly register for co-op; After logging into your student Handshake account click on "Career Center" and click "Request an Experience" to initiate the request for using your current IT job/volunteer for use towards college credit (NET 349).

For students who are already working in an IT related field can use this as a co-op experience provided you have authorization of BOTH your supervisor and approval from the EKU co-op office. Your supervisor will be evaluating the co-op work using a form developed by the EKU co-op office. You will also need to fill out a co-op agreement regarding professional workplace responsibilities, and at the end of the semester submit a time sheet and signed by your supervisor. During regular semesters a minimum of 80 hours of work spread over at least 10 weeks or more is typically required.

Co-op instructions are available here: <a href="http://people.eku.edu/chandrav/NET/Advising/How">http://people.eku.edu/chandrav/NET/Advising/How</a> to submit an Experience for a Co-op-Internship.pdf

The Handshake request you fill out is first routed via email to your employer for their approval, following which it is comes to me for CST program co-op requests, then is routed to the overall EKU co-op director, Ms. Zoie Webb, who works with the Registrar's office to get the student registered for NET 349:

Once you initiate the Handshake request, please let your work supervisor know that they will be receiving an email from: handshake@notifications.joinhandshake.com

Note that this is NOT an EKU domain, and so may get quarantined or flagged as spam by the organization's email system. This email includes a link to the online survey link for approving your co-op with the company counting towards NET 349 course credit.

Once you have found a suitable IT internship position, the following information will be needed on the web form while applying for toward co-op credit (NET 349) at EKU:

- Contact information about the company/organization name Company's location, phone, email
- Your job title:
- Department:
- Job Type:
- Salary:
- Accepted offer (when):
- Duration: You may indicate the start date and leave the end date open if it has not yet been decided, or extends beyond semester
- ID 901 Number:
- Supervisor name:
- Supervisor email:
- Job description: (include at least 4-6 bulleted list items outlining your IT-related job responsibilities)
- Hours per week:
- Coop/Internship Major: NET (not CSC)
- Students must work a minimum of 80 hours per credit hour requested: 1
- Undergrad/Grad:
- Job Source (where did you hear about this job?):
- Is this internship located outside of KY:

Later in the semester in which you are completing the co-op both you and your work supervisor will have the opportunity to participate in a survey form developed by the EKU co-op office. The survey categories, as they apply to the student's role in the co-op are:

- Proactivity (motivation, positive attitude, and initiative)
- Professionalism (punctuality, integrity, responsibility, and response to supervision)
- Interpersonal Skills (positive relationships with everyone, teamwork, and active listening)
- Communication Skills (speaking, writing, and presenting)
- Critical Thinking (critical reading, evaluating situations, decision-making to solve problems, application of classroom learning, and learning on the job)
- Delivering (prioritizing goals, time management, use of resources and technology, adaptation to change, and producing quality work)
- Comments regarding overall performance
- Identifying strengths and weaknesses
- Suggestions for professional development

Also, close to the end of the semester, you will also be uploading a timesheet signed by your supervisor and making it viewable in Handshake. If you have any follow-up queries or comments about the co-op process let me know or contact the EKU Office of Advising and Career Services office -

# BS (CST/NET), 3+2 BS (CST) and Graduate-level MS (TM – CSTS) concentration classes

NET349 (Co-op), NET 367A (Exit exam for AAS), NET 367B (Exit exam for Minor), 367C (Exit exam for Certificate), and 467 (Exit exam for BS)

BS (CST/NET) students within 30 hours of completion of their degree, with a 3.0 GPA or higher, may enroll concurrently in graduate level courses (total undergrad/grad class load limited to 15 hours). Note that any graduate level classes taken concurrently with undergraduate level ones may not be used to fulfill any undergrad requirements.

However, students who started in the accelerated 3+2 BS (CST) program in Fall 2019 (or later) can use the following courses: AEM 804 (Project Management) in place of AEM 407 (Fundamentals of Project Mgt.), NSM 815, and NSM 845. Of these AEM 804 is being offered in summer 2024.

Students in the accelerated **3+2 BS (NET)** program, **started prior to Fall 2019**, may take the following 3 grad courses and count these in both their BS(NET) and future MS (AETM-NSM concentration) coursework: AEM 804 (Project Management) in place of AEM 407 (Fundamentals of Project Mgt.), along with AEM 801 (Economics for Lean Ops) and TEC 830 (Creative Problem Solving).

Refer to the specific **MS Degree courses in Technology Management with concentration in Cyber Systems Tech Security** requirements given on <u>page</u> 8 of this document.

# Additional supporting courses for BS (CST/NET) only

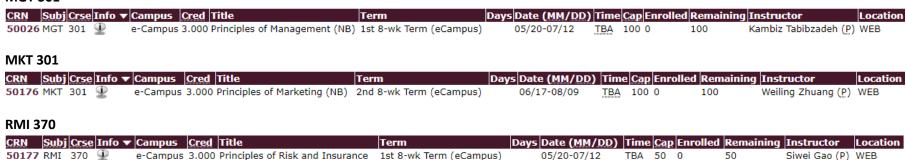

9 hours of computing-related classes: (CSC 160 or higher), or (INF 130 or higher), or (CIS 215 or higher)

Starting Fall 2022, the INF 104 may be taken in place of TEC 161, following approval of proposed program curriculum changes.

3 hours of an upper-division management related course are needed in the BS(CST) degree: MGT 301, MKT 301, and RMI 370 are being offered in summer 2024. Pre-requisite for this is upper division standing (60 hours or more)

#### **MGT 301**

As TEC 161 (Computer Applications in Industry) is not being offered in the summer, the INF 104 course may be used to substitute for TEC 161 with prior adviser approval:

BS (CST) students need PHY 101 or higher AND any other <u>Gen Ed Natural Science Element 4</u>. This may include lab-based chemistry classes or others in Element 4 such as AST 135 (Introductory Astronomy). BS (NET) students need to take a PHY 101 or higher AND a lab-based chemistry class.

#### **Certification Exam requirement for BS (CST/NET)**

BS Degree students need to take an adviser-approved computer/networking, security, or electricity/electronics systems related certification exam. These could be related to hardware or software or applications, particularly in the direction you see yourself advancing professionally. Students have completed CompTIA IT Fundamentals, A+, Network+, Security+, Project+; or Cisco's ICND1, CCNA; or Microsoft Certified Professional (MCP); Adobe Muse, etc.

The CompTIA certifications can be obtained at discounted educational pricing through the CompTIA Academic Marketplace -- https://academic-store.comptia.org/certification-vouchers/c/11332

Current (Fall 2023) CompTIA academic-store pricing for the IT Fundamentals+ (\$82), Cloud Essentials+ (\$82), Network+ (\$173), each A+ (\$112, 2 exams required), Security+ (\$254), Linux+ (\$173), Project+ (\$173). Non-academic pricing for these certifications is significantly higher -- <a href="https://www.comptia.org/testing/exam-vouchers/exam-prices">https://www.comptia.org/testing/exam-vouchers/exam-prices</a>.

First sign up for a CompTIA Academic Marketplace account using your EKU MyMail account. <a href="https://academic.comptiastore.com/login.asp">https://academic.comptiastore.com/login.asp</a>?

Then add any exam vouchers (such as IT Fundamentals) to the cart and checkout. An exam code will be sent via email.

Next, head to the Pearson VUE website, where you schedule the exam using the CompTIA exams. Here, you will need to create a new Pearson VUE account:

#### http://www.pearsonvue.com/comptia/

Next, go through the steps of finding an exam center for the CompTIA exam, setting up the day and time you would like to take it, and towards the end of the process instead of entering payment information for the certification, you can scroll down and enter the exam code obtained from the CompTIA Academic Marketplace. Once your exam is scheduled you should receive a notification. Exams can be rescheduled within a day or so of the initial date. Owing to the ongoing Covid pandemic exams may be scheduled at home as well.

With the exam scheduled work backwards and plan out a study schedule. Take as many practice exams for the certification as you can. For example, some free sample CompTIA IT Fundamental questions are available through tutorials at: <a href="https://www.exam-labs.com/vendor/CompTIA">https://www.exam-labs.com/vendor/CompTIA</a> as recommended by program alum, or other question sets for the certification you are interested in taking through online websites. Identify key online study/review resources and build in a bit of practice just about every day for sharpening those timed certification test taking skills. All the best!

Plan out your spring and summer 2024 schedule: Use a weekly planner such as the one shown below courtesy, PublicDomainPictures.net, for planning out days/times classes meet, or through the web based live online free college schedule maker at: <a href="https://freecollegeschedulemaker.com/">https://freecollegeschedulemaker.com/</a> or at <a href="https://www.coursicle.com/eku/">https://www.coursicle.com/eku/</a>
