

## Capstone Presentation & Video Demo Evaluation

	Circle one			Comments	
	NA	Fair	Good		Very Good
Overview/Motivation/Perspectives/Intro related to topic ( 2.5)		Somewhat organized content, partial comprehension of concepts or use of key facts, concepts, or steps with some use of visuals while verbally communicating the design and development of the project, with few references cited supporting the work; safety, usability, and quality not considered	Clearly organized content, mostly accurate, connects portions of work logically, integrating visually and verbally some key facts, concepts, and steps while communicating the design and development of the project, with some references cited; some focus on improving safety, usability, and quality	Clear, accurate, precise organization of content, visually and verbally demonstrating comprehension of significant concepts, integrating relevant and recent information logically and creatively in the design and implementation, properly citing several resources; clear focus on improving safety, usability, and quality	
Project specs (C1, C2, X); constrains and assumptions (3)					
Proposed solution (Design), including tentative schedule, block diagram, flow chart (4)					
Results/Implementation/Complexity of solution, testing with evidence of improvement (5)					
Conclusions/Consequences/Future work (1.5)					
References highlighting key ones; Discussion/Q&A (1.5)					
Overall organization – thoughtful, logical order, topic focus, emphasis on main points; reflecting on the process (2)					
Communication with audience; use of presentation tools including text and graphics, font sizes of text, Q&A (2.5)					
Video demo (What, why, prep, How-to, Wrap-up) (3)					

# Capstone Presentation & Video Demo Evaluation

Presenter(s): \_\_\_\_\_

Topic: \_\_\_\_\_

## Brochure or Flyer

Title, need, specs, constraints, selected design diagrams, photos, possible applications, contact information
