

Psychology 250

Exam 4 Study Guide

Please re-familiarize yourself with these terms and concepts BEFORE the review session. Terms listed with a “vs.” require you to know the difference between those two terms.

TERMS

Introduction section	Running head
Literature Review	Abstract
Hypothesis	Reference section
Empirical vs. Anecdotal evidence	First- vs. Third-person
APA style	Colloquial phrasing
Title page	Cryptic language

OTHER THINGS YOU NEED TO KNOW

1. The organization of the Introduction section
2. Organizing references in terms of specificity for the literature review section
3. What to do if you don't have evidence to support a claim
4. Be able to generate and recognize both correlational and experimental hypotheses
5. Aspects of a good research article
6. When and how to cite references in the paper
7. How references are organized in the Reference section
