

Home Page

Assignment #3

For this assignment students are to create a very simple Home Page in Dreamweaver. This Web page must be posted on EKU's Student Web Server in the Site provided for the individual student.

The page is to have the following characteristics:

1. Page named default.html
2. The page is to be in a folder titled 255.
3. The page is to have a title, which is the student's name.
4. Include a description Metatag describing the student.
5. Have an H1 heading at the top of the page, again this to be the student's name.
6. All heading are to use a Font List that starts with either Verdana or Georgia.
7. Include the EKU logo, found on the EKU home page, with a link to the EKU home page.
8. Include an H4 heading "TEC 255, Web Publishing", with a link to:
<http://people.eku.edu/marchantm/255/255.html>
