

# Graphics

## Assignment #8

Students are to acquire, resize and enhance photographs, and place them in the graphic CSS boxes created in the last assignment. In addition, at least three new family pages are to be created. All photographs are to be enhanced according to the Photoshop Procedures information sheet.

There is to be a photo of the student on their home page. The special interest page is to have at least two photos. The family page is to have at least three small photos of family members; each photo is linked to a new page where the image is larger. The new family photo pages are to follow the design of the home page that includes the navigation bar a page title and page headline. Also include some information in body text about the photo and a link back to the family page. All graphics are to have alt text descriptions in the img attributes.

Evaluation	Points Possible	Points Received
1. Home Page Photo	4	_____
2. Special Interest Page Photos	4	_____
3. Family Pages
