Assignment #6

This assignment requires the creation of a flash animation, which is a slide show of photographs. The animation is to be on it's own Web page in the student's site.

The animation is to include the following:

1. At least 10 photos. These are to be enhanced in Photoshop.
2. The animation is to have a title.
3. The photos first appear as small thumbnails.
4. The photos are enlarged, with a motion tween transition, until all have been shown.
5. The animation is to auto start.
6. Background music which plays for the entire animation.
7. A stop button, which stops both the animation and the music.
8. A play button, to restart the animation where it was stopped.
(This button does not need to restart the music.)
9. A rewind button, to restart the animation from the beginning.
