# Image Mapping

## Assignment #8

For this assignment, each student is to create an image map of a family with links to at least four web pages.

### Image Mapping

- a. On the student's family page, place a large image of at least four family members.
- b. Create at least four web pages for individual family members or groups. On these pages, have a photo and information about that family member or group, and a link back to the family page.
- c. Map the large image on the family page with links to the appropriate pages.
