

Name _____

Movie

Assignment #10

For this assignment students are to place a movie on a Web page for viewing. The student can make their own movie or capture one off of the Web. Do not use anything that is that is copyrighted. Do not include any movie content that Professor Marchant would find objectionable.

The movie is to have the following specifications:

1. The movie is to be either: QuickTime, Windows Media or Flash Video.
2. Length of at least 20 seconds.
3. A controller needs to be visible and usable.

Use the instructions on pages 290 and 291 of Castro's book to use a QuickTime movie.

Use the instructions on page 304 of Castro's book to use a Windows Media movie.

It is recommended that the student use a video from YouTube. These instructions are on pages 306 and 307 of Castro's book.

Evaluation	Points Possible	Points Received
